

Welcome to the new academic year. This is the beginning of the 8th year of the Greater Waco Advanced Manufacturing Academy (GWAMA) and we are excited about having your students on our campus.

We know that all of us have undergone and made many changes in our lives over the last 6-9 months, and school districts have been through many of those same changes.

Our primary concern is to keep everyone who works and attends GWAMA safe and healthy. We will be requiring all of our students to have a daily temperature check and to answer some health questions prior to coming into the building, social distancing will be utilized whenever possible, and all students must wear a mask while on campus at all times. Hand sterilization stations will be in multiple areas in the hallways and cafeteria area, and in all classrooms.

The school year for GWAMA will begin on September 8, 2020 and as we have done in the past, GWAMA students will be expected to follow the WISD calendar schedule.

There will be much more information about GWAMA and the upcoming year posted on the webpage beginning next week and will continue throughout the school year. We are all looking forward to having your students on our campus and having a great 2020-21 school year.

Dr. Dale McCall
Dean-GWAMA
